\$17,170 IS TOTAL TO HOSPITAL FUND FIRST DAY DRIVE

Pennies a Factor in Accumulation of Fund for Children's Institution.

Some one must have had a pocketful of pennies when the solicitor approached him on behalf of the drive to raise \$100,000 for the Children's Hospital, for the sum announced as secured yesterday, the first day of the campaign, was \$17,170.37. Those in charge of the drive today expressed the hope that every citizen, after making his contribution in the usual even dollars, will "frisk himself" for odd cents. They surely do mount up.

Friendly Rivalry Manifested.
A spirit of intense but friendly rivalry was apparent between the team captains of the three divisions of workers when Cuno H. Rudolph yesterday at the New Willard called on the three divisional leaders and sub-leaders to make their first returns. Today workers in Thomas Bell Swaney's division are congratulating themselves on the fact that their unit led with a total of 10,957.57 collected or pledged.

The following team captains under his command reported: Mrs. Swaney, \$1,999.87; Mrs. R. S. Huidekoper, \$1,915; Mrs. Walter Hutchins, \$273; Mrs. Horace H. Westcott, \$1,375; Miss Barbara H. JAPAN MAY ASK U. S. TO HELP COMBAT 'REDS'

Sees Serious Problem in Eastward March of Bolsheviki in Siberia.

TOKIO, Friday, November 28 (by the Associated Press).—The eastward march of bolshevik forces in Siberia has developed a suddenly serious problem for Japan, which is gravely occupying official circles and which probably soon will be discussed with the American government. The convention by which the allies have operated in eastern Siberia may be menaced by the bolshevik and the interests of law and order in China, Manchuria and the Russian Pacific littoral may necessitate a military campaign on a large scale. Japan apparently has no wish to attack the problem single-handed, and the impression prevails here that discussion of the matter will be discussed every step with the American government and may request moral, financial and even military support. Although some newspapers continue to talk about misunderstandings between Japan and America, the impression is steadily growing here that the people who are actually conducting the affairs of the empire will seek, not only to cement the friendship between the two countries, but to cooperate with America in the widest sense in the solution of all far eastern problems. For the moment the greatest problem is bolshevism. The first priority must be for the necessity of a common defense against the bolsheviki was struck by Viscount Ishii, former ambassador to the United States, at the America-Japan dinner given by the Japan Society on November 19. He said: "All petty and selfish considerations of a racial and economic character should be merged into the vast consideration of this common defense."

Elaborate preparations have been made to welcome Admiral Albert Gleaves, commander of the United States Asiatic fleet, who will arrive here on board the warship South Dakota, December 4. Numerous official dinners and receptions have been planned.

End of Oil in One Mexican Field.
LAREDO, Tex., December 2.—A dispatch from Tampico received here states seven of the principal oil wells of Chinampa have ceased flowing, or that only salt water flows from them, which leads to belief that mineral oil in that region is exhausted. Two of the largest oil wells ever brought in were struck in this region, but they were short-lived.

U. S. TREASURER REPORTS 1919 INCREASED RECEIPTS

Increase of nearly a half billion dollars over 1918 was noted in the report today of the treasurer of the United States for the fiscal year 1919. The ordinary receipts were \$4,647,603,452.46 and the ordinary disbursements \$3,365,362,741.76, an increase of \$6,398,330,475.73 as compared with those of the year previous. The disbursements on account of the Panama canal were \$12,265,775.08, while the receipts were \$6,777,046.55.

Gold in the Treasury at the beginning of the year amounted to \$2,479,564,967.08, the treasurer said. There was a noticeable increase monthly thereafter until May 15, when the holdings attained a maximum of \$2,565,059,633.48. Modification by the

Federal Reserve Board June 9 of the embargo on the movement of the metal caused the amount of gold to be reduced moderately. The excess of exports over imports during the year amounted to \$54,211,802.

The general stock of money in the United States at the close of the fiscal year was \$7,518,739,000, an increase of \$777,716,706. The money in circulation increased in volume by \$386,602,549 and amounted to a grand total of \$5,566,029,973.
